SEGES
INNOVATION

Clean grass is key

Lack of herbicides

"The unbroken row"

"Row cropping" trials performed in i grass seed

"row cropping" irl

Kentucky bluegrass

Perennial Ryegrass

Tall fescue

Off the shelf or in the workshop?

Need to have - nice to have

Need to have:

- Minimum 30 centimeters row spacing
- Compression of the grass seed to ensure capillary effect
- Accuracy in seed rate target
- Accuracy in sowing depth

Nice to have:

- GPS locations on row level
- Correspondence between seed drill and row sprayer
- Application of fertilizer on top of grass seed row
