

Nyhed om Datadrevet management i mælkeproduktionen på LinkedIn

Publiceret på LinkedIn den 28. september 2022. Link: https://www.linkedin.com/posts/katarina-nielsen-dominiak-5020791_segesinnovation-activity-6969852403856642048-Nbab?utm_source=share&utm_medium=member_desktop

The image shows a LinkedIn profile page for Katarina Nielsen Dominiak. At the top, there's a navigation bar with icons for Home, My Network, Jobs, and Messaging. Below the navigation is a post from Katarina. Her profile picture is a close-up of her face, and her cover photo shows several cows. Her name is listed as Katarina Nielsen Dominiak (she/her) • 1st, with a PhD in Precision Livestock Farming. She has posted 1mo ago. The post content discusses weight changes in cows and mentions attending the Precision Dairy Conference in Vienna. It includes a link to a presentation slide about early detection of abnormal weight patterns in dairy cows based on AMS weighing data, which was presented at the Precision Dairy Conference 2022 in Vienna. The slide features a cow and text in English. Below the post, there are engagement metrics: 1 with You and 4 others, and 16 others.

Vidste du, at vægtændringer hos en ko kan fortælle landmanden om koen er i trivsel, eller om den er ved at blive syg?
Det skal jeg fortælle om til Precision Dairy Conference i Wien.
Jeg glæder mig til at høre nogle spændende indlæg, og få god inspiration med hjem til #SEGESinnovation
