

Care for calves

Free workshop on calf care for international employees

Working with calves can be a fantastic and inspiring job when everything goes well. Struggling with sick calves can be very frustrating.

Knowledge about good management is essential to prevent disease and to reduce the need for antibiotic treatments. By joining this free workshop, you will get important basic knowledge on calf care. The workshop will focus on how to support the calves to promote better growth and better calf health. By participating in the workshop, you will have the opportunity to improve your calf skills and to share experiences with colleagues working at other farms.

PROGRAMME

- | | |
|----------------------|---|
| 9.30 - 10.00 | Coffee & welcome |
