Antal besætninger under tilsyn - udvikling ov...

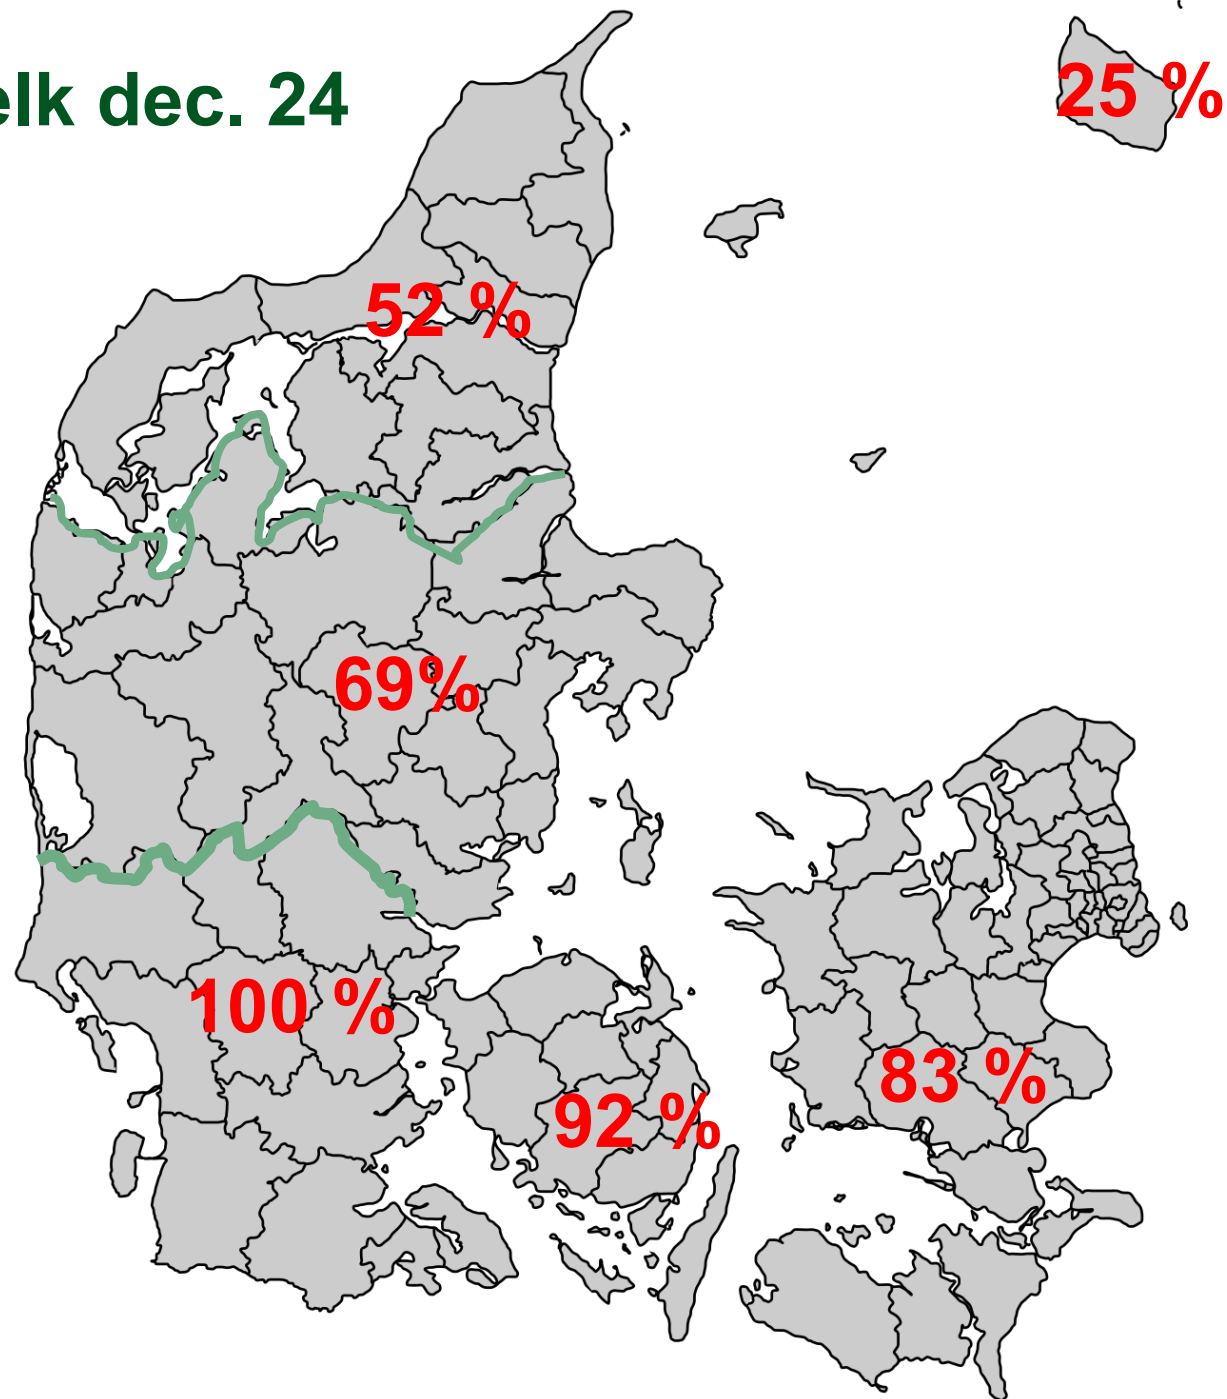

Overvågning af tankmælk dec. 24

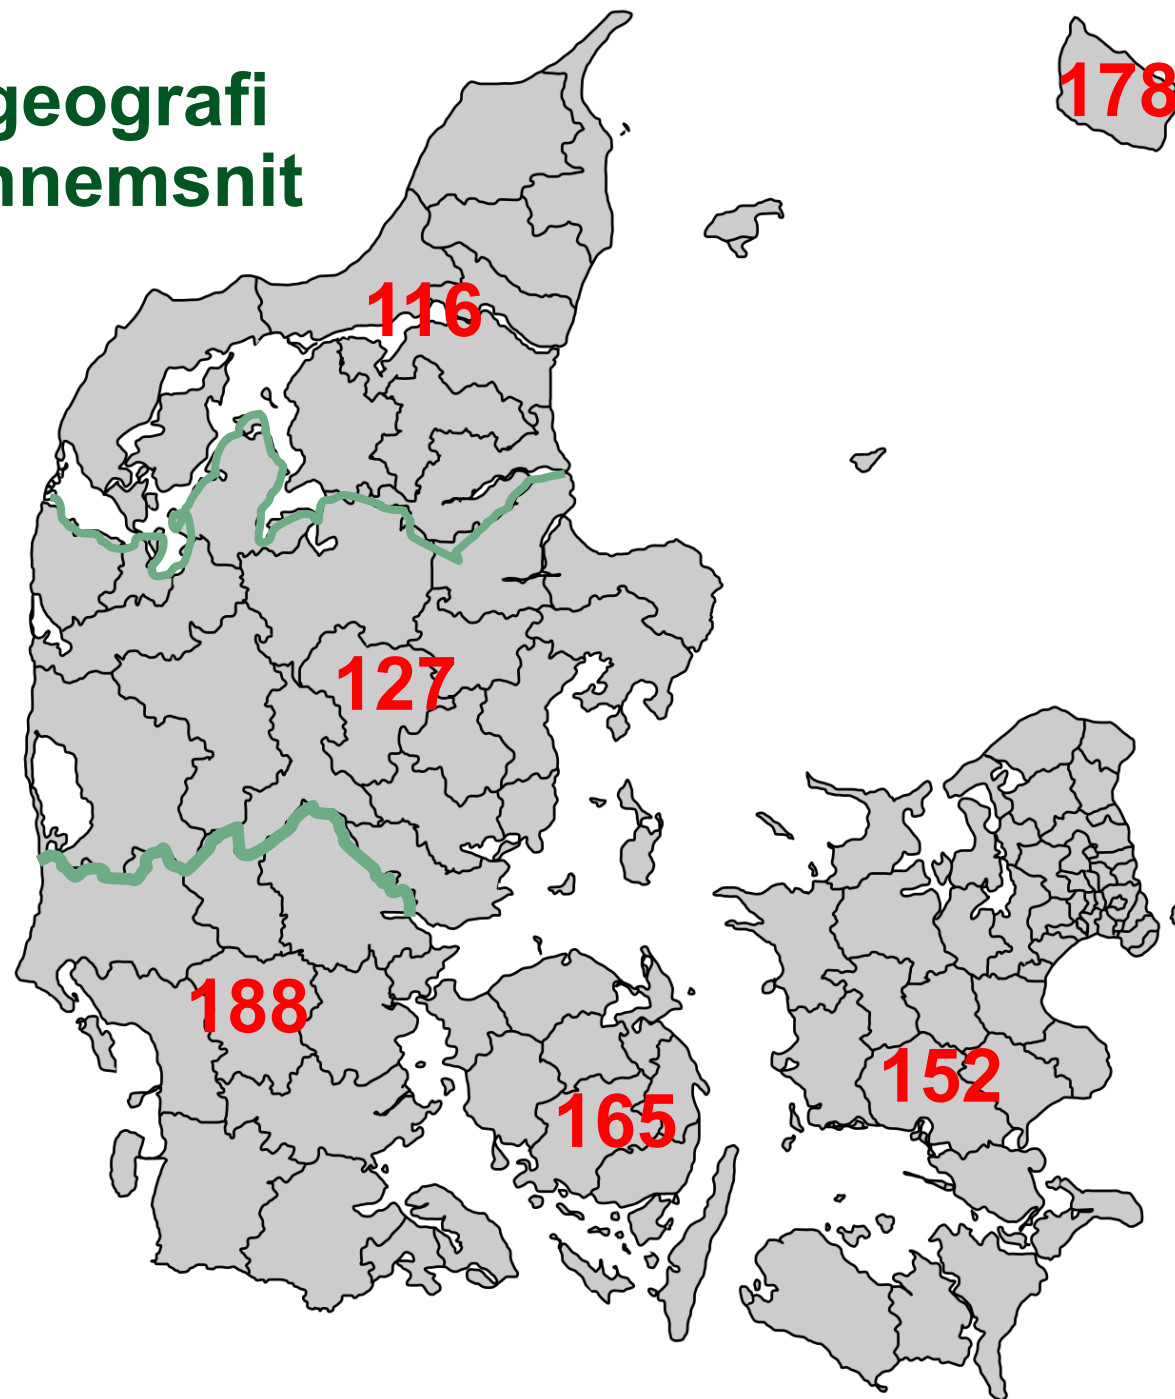

Procent ikke-negative

I alt 164 prøver

Ikke-negative =
positive + inkonklusive

Sammenhæng mellem geografi og antistofværdier - gennemsnit

BTV strategy 2025

- Voluntary vaccination (Bultavo-3, Syvazul BTV3)
- No restrictions on herds
- Import restrictions for live animals
- Recording of cases
- EU declassification of BTV to class E (expected 2026)
