

SEGES INNOVATION

NOTICE OF MEETING

Participants

Apologies

Meeting date 29 November 2022 09:00-15:30

Place Danespo, Dyrskuevej 15, 7323 Give

Agenda

9:00 Coffee and light breakfast

9.30 Selected presentations (15+5 min)

- 1) SEJET – wheat in 2022
- 2) Nordic Seed – wheat in 2022
- 3) Danespo – potatoes in 2022
- 4) DLF – grasses in 2022

10:50 Coffee break

11:00 OptiCrop – final conclusions and recommendations for future research (15+5 min)

- 1) OptiCrop WP1 – Kristian Thorup-Kristensen
- 2) OptiCrop WP2 – Torben Asp
- 3) OptiCrop WP3 – Per Gregersen

12:00 Lunch

12:40 Selected presentations (15+5 min)

- 4) Potato data from RadiMax 2022 – Olga Popovic
- 5) Wheat and grass isotope data from 2021 – Arnesta Odone

13:20 break/buffer

13:30 Selected presentations (10+5 min)

- 6) Update on the OptiCrop 2021/2022 rhizoboxes experiments – Marta Malinowska
- 7) Integrating a growth degree-days based reaction norm methodology and multi-trait modeling for genomic prediction in wheat – Miguel Raffo
- 8) Multi-omics prediction models and GWAS – Pernille Bjarup Hansen
- 9) Update on the models for genetic variation of root length in wheat – Bjarne Nielsen

14:30 Coffee break

14:45 Plan for the coming period

15:00 AOB

15:15 End of meeting
